Together in Development & Education (India wing)

Strategy Leader

The Strategy Leader will be responsible for leading strategy development projects and bridges to business planning to ensure the portfolio of work will achieve ambitions aligned with strategic direction and priorities.

We are looking for a team member who enjoys working on complex problems and collaboratively crafting strategies that have the potential to transform the lives of people around the world. You are an excellent teammate who is excited to work across a diverse set of disciplines and issue areas. You bring a commitment to the foundation's core values, mission, and programs with an approach that is consistent with the foundation's guiding principles and holding self to the highest ethical standards.

Timeframe: All year round

Location: Main Office

Responsibilities

a) Lead strategy development projects
b) Design and conduct analyses in support of strategy exploration and decisions
c) Facilitate effective and inclusive stakeholder engagement to inform strategy work and work towards alignment and decisions
d) Create materials for communicating strategy and key analyses with internal/external leadership

Qualifications

This program is open to undergraduate students, post-graduate students, pass-outs and working professionals.

a) Proven strength in structured problem solving and strategic business planning, with the ability to easily identify and communicate frameworks to facilitate strategy creation, analyze core issues, and facilitate discussion of trade-offs between strategic choices.
b) Ability to bridge strategy development to business planning to ensure portfolio of work will achieve ambitions aligned with strategic direction and priorities
c) Experience with qualitative and quantitative analyses as well as group facilitation and workshops.
d) Ability to learn new content quickly, identify connections and second-order implications and demonstrate proficiency with internal/external teams
e) Ability to work in a self-guided manner, handle multiple priorities and to demanding timelines on multiple projects simultaneously
